

# The 21st meeting 2018 in Brühl

The first participants arrived on May 31, 2018. After dinner, the pleasant get-together began in beautiful weather. The next morning, each rider received their participant documents in a beautifully prepared bag, including stickers, the start card shown above, and the program for the two days. The ride began at 9:00 a.m, as predicted, in light rain.

The first destination was Brühl Palace. During a guided tour, visitors learned many interesting stories about the past of Brühl's five palaces.

The journey continued to the radio telescope in Effelsberg. Barely had we arrived when the rain got heavier. After getting out and gathering in the parking lot, it was decided to cancel the tour of the telescope.

While some Pumeiros started their return journey, the others made their way to the telescope - perhaps the weather was just a little joke from the heavens?

Back at the hotel, the Pumas were introduced after all - unfortunately, only a few spectators turned up. The weather sometimes has other plans!

Hotel Jägerhof in Brühl

In the evening, after dinner, a few things regarding the Puma CoI Europe were discussed, and the very nice participation certificate was presented.

A special focus: the big outing on Saturday with 19 Pumas - that's sure to be a fantastic experience!

## Urkunde

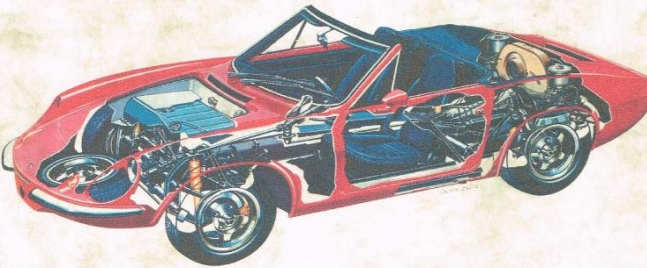

für die Teilnahme am

**21. Puma - Treffen 2018**  
**in der Schlossstadt Brühl**  
**und**  
**15. Jährigem bestehen der COI Europe**

Teilnehmer: Harder  
Jens-Uwe / Petra  
Mit dem Fahrzeug: Puma GTS

Kennzeichen: HÖS - JU - 2H

Our event kicked off at 9:30 a.m. on Saturday morning in bright sunshine - the convertibles set off with the top down, full of anticipation. To ensure a smooth process, the participants were divided into two groups.

The first group set off with 12 Pumas to the WDR outdoor area. Unfortunately, the Pumas weren't allowed inside.

Many well-known TV series are produced here.

The group listened attentively to the tour guide's explanations.

You can see the most famous production on this page! Who doesn't know it?

The second group travelled with 7 Pumas to the fascinating Gartzweiler open-cast mine near Jackerath.

After these exciting outings, all Pumeiros met at the Michael Schuhmacher kart track in Kerpen to return to the hotel together.

There, visitors had the opportunity to explore the vehicles more closely during an exclusive tour.

## Raubkatzen blieben friedlich

21. Puma-Treffen in Brühl lockte internationale Gäste an

**Brühl-Pingsdorf (huz).** Das 21. Internationale Treffen der Liebhaber und Sammler der Automarke Puma bot zwei Tage lang eine bunte Parade der seltenen Sportwagen am Pingsdorfer „Jägerhof“. Das Fahrzeug wurde ursprünglich von einem Kleinhersteller als Sportwagen produziert und später in Koope-

ration mit VW do Brasil bis 1997 gebaut. „Von 1971 bis 1981 wurden lediglich rund 100 Pumas nach Europa exportiert“, sagte Mitorganisator Heinz Krausen. In der Schlossstadt Brühl trafen sich Fahrzeuge der Baujahre 1967 bis 1979 zu zwei Ausfahrten, wobei die erste nach Effelsberg wegen des star-

ken Regens abgebrochen werden musste. Tags darauf, besuchten die Teilnehmer, von denen einige aus Brasilien, der Schweiz, den Niederlanden und aus Kanada angereist waren, eine große Rundfunkanstalt in Bocklemünd, die Aussichtsplattform in Jackerath und die Kartbahn in Kerpen.

The Pumeiros from Germany, the Netherlands, and Switzerland, as well as our guests from Brazil and Canada, were visibly enthralled by the impressive big cats.

The press and a representative of the city of Brühl were also enthusiastic and enjoyed the fascinating vehicles.

In bright sunshine and with a refreshing drink in the beer garden, lively conversations about petrol were held. After a delicious dinner at the hotel, the discussions and lectures about the Pumas continued long afterward.

On Sunday morning, after a hearty breakfast, the Pumeiros began their journey home.

Special thanks go to Heinz and his dedicated team, who put so much effort and passion into making this successful event possible. Without their dedication, this experience would not have been possible.

Despite the initially inclement weather, it was overall a wonderful and successful Puma meetup that everyone will remember for a long time.

Bornheim, June 2018
